Rain, Rain, go away. We have experienced an unusually large amount of rain over the past month, which causes the grass to grow at an alarming rate. The bluegrass roughs can grow 1/2 inch over night. Even though we mow rough twice a week sometimes on the last day before the next mowing the grass can get a little tall, we appreciate your understanding. Hope ya hit it straight.

Wamego Country Club Hires Creative Golf Marketing

We would like to proudly announce a new relationship that we have formed with Creative Golf Marketing.

Creative Golf Marketing was founded in 1990; it is the largest and most successful membership marketing firm in the United States. Creative Golf Marketing has designed and successfully administered membership marketing initiatives for over one thousand (1,000) private clubs. Here are a few brief facts about the company and the services they will provide:

Creative golf marketing has an associate base of some of the most talented and knowledgeable professionals in the golf industry. The consultants and professionals utilized by the company offer local and national perspectives drawing on the strength of their diverse backgrounds and experience. They specialize in designing proper fundamentals and structure to assist private country clubs in solidifying their membership offerings for the long term financial health of the club.

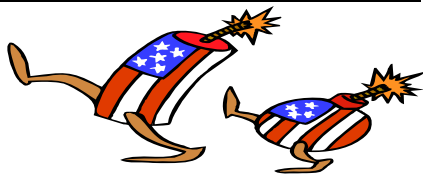

We are fortunate to have their headquarters located in our own back yard, Manhattan, KS. We have retained their services for a very minimal fee to assist our club with recommendations and development of membership retention and recruitment and ongoing strategic planning. We look forward to sharing their findings and recommendations in future publications with you.

You will notice a small change in the amount of your monthly bill. This is due to the 1% increase of the sales tax rate to 9.05%. Please make the necessary changes on your check register or bill pay if you pay electronically.
